

# A Wild Life

2 December 2024

Join multi-award winning and globally-published wildlife photographer and photojournalist **Andy Skillen** as he brings **"A Wild Life"** to northwest London.

From the barren tundra of the High Arctic to the depths of the Congo Basin, the Himalayas to the jungles of South America, and with a bunch of stops in between, Andy will take us on a whistle stop tour of recent and ongoing commissions for the likes of BBC Wildlife amongst others, sharing the euphoric highs (and the considerable lows) of working at the frontline of the natural world. This multi-media presentation engaging music, video and stills, all wrapped up in Andy's wit-laced style of delivery, is sure to keep you on the edge of your seat as you get to experience the realities of photographing and filming in some of the more extreme locations on the planet. In addition to a range of hilarious stories and anecdotes, Andy will reveal some of the camera tactics and bush craft needed to secure the type of shot that a job such as his requires, as well as some invaluable advice on when to run and when to hide!

*All proceeds on the night will go to one of the wildlife charities supported by Andy and will include a prize draw with the chance of winning a signed limited edition.*

**'A Wild Life' will be presented by Andy Skillen on the 2<sup>nd</sup> December 2024.**

@andyskillenphoto

UK-based Andy Skillen has been a wildlife photographer and photojournalist for more than 25 years. Working globally for all the industry's major media, Andy is on the road working for up to six months every year in order to supply a full range of images and articles on wildlife and conservation issues from all continents. Whilst continuing to focus much of his time on feeding these organisations and companies with material, he also supplies a number of publishing houses for specially-commissioned book titles and has also active sets of fine art limited editions which have been sold through galleries in the UK and overseas for more than 17 years. He also continues to undertake private commissions for collectors both corporate and individual.
